AKB

Pharmacy Sales

PHARMACY BUSINESS
SALES & VALUATIONS

Planning and preparing for the retirement sale of your business a few years in advance and including trusted specialist advisors at an early stage will ensure that the business is sold under conditions where

- **the best price is achieved**
- **with minimal Capital Gains Tax liability**
- **and with minimal stress for you.**

At AKB, for our retiring Clients, we provide a SPECIAL SERVICE in order to achieve these aims:

- **inspection of accounts and financial paperwork**
- **advice on how to prepare elements of the business and paperwork so the business shows long term growth prior to marketing**
- **ongoing advice on market conditions so the timing of the sale will be when the market is at its best.**

ALL THIS WORK IS FOR FREE. The only fee payable will be the Sale Fees paid on Completion (the same as any other business transfer agent)

Why do AKB do this for free? Because...

- We trust our Clients to instruct us when the time is right - most of the pharmacies we sell come from recommendations.
- this is work we would do anyway - we're just doing it a few years in advance so you get the best price!
- We pride ourselves in providing a personal service and want our Clients to achieve the best results with least hassle and the preparation allows us to do just that.
